

If your dog's food isn't dog food, it could be poisonous

Onions, garlic, leeks
(raw, cooked and dried)

Slug pellets

Chocolate
(it's really bad for dogs)

All medicines
(particularly ibuprofen)

Raisins, currants
and sultanas

Vitamin D
(it's in supplements and foods)

Rodent poison

Silica gel packs

Grapes

**Don't wait for symptoms to show,
get your dog to the vet immediately**
