**How long has the owner had the animal?**

**Is the animal insured? YES / NO**

**Recent vaccination history:**

**Are there any related or in-contact animals? YES / NO**

**Have haematology and biochemical tests been performed?**

(Please summarise or enclose copy reports)

**Has a serum sample been collected antemortem? YES / NO**

**Has the animal been x-rayed or scanned?**

(It is helpful to include radiographs with the case if possible, particularly if a detailed examination of bones or joints is required)

**Is there any other history of a disease known with this animal?**

(Please state)

**Have previous biopsy or cytology samples been taken?**

**Any other relevant information:**

**\*\* Please note that owners will not be able to have animal's body back for burial \*\***

**We can arrange individual cremation at extra cost, if requested, otherwise the animal will go for mass cremation. Please see our website for prices.**
